Education Specialist

Summary

Teaching students with special needs has been an incredible opportunity. During my career in the field, I have enjoyed the experience of working with each and every one of my students. I am comfortable working with any level of special needs and have experience in both mild/moderate and moderate/severe classrooms. During my time at Anderson Middle School I have executed excellent classroom management techniques, provided detailed and leveled instruction, established personal relationships with students and parents, fostered commitment towards high expectations, and maintained all legally required documents and IEP regulations. Special Education is incredibly important to me and I absolutely commit myself to providing the best opportunities and education to all my students.
