## Professional Experience

- February 14, 2013 – May 24, 2013: Long-term Substitute for East Stroudsburg High School South, East Stroudsburg Area School District, East Stroudsburg, Pennsylvania.
  - During my time in this assignment, I was responsible for creating and teaching my own lessons and assignments on a daily basis for American Studies I and American Studies II courses.
  - The assignment required me to teach three different sections; including both an Applied and an Honors section. I was also responsible for all classroom management and teacher's duties.
- December 2011 – Present: Daily Substitute Teacher for East Stroudsburg Area School District, East Stroudsburg, Pennsylvania.
  - Required to follow lesson plans set by the teachers and maintain order in the classroom.
  - Have had experience with students from grades K-12 as well as a wide range of classes and class levels.
  - Have also had experience with special needs students and Internal Suspension classrooms.
- March 2011 – May 2011: Student Teaching placement at Clear Run Intermediate School, Tobyhanna, Pennsylvania.
  - Taught seventh grade World Geography; focusing on the Western Hemisphere.

- Completed an entire unit on the Geography, History, and Culture of Canada.
  - Worked with a co-teacher in two of the six sections taught.
- January 2011 – March 2011: Student Teaching placement at East Stroudsburg High School South, East Stroudsburg, Pennsylvania.
  - Taught ninth grade World Studies.
  - Completed an entire unit on Japan.
  - Worked with a co-teacher in one of the three sections taught.
- 2007 – Present: Assistant Football Coach at J.T. Lambert Intermediate School; East Stroudsburg, Pennsylvania.
  - The team consists of both seventh and eighth grade students.
  - Coach the offensive and defensive lines.
  - Run the offense during games.
  - My first season with the team was as a volunteer coach.
- May 2009 – September 2010: Joint internship with the Geography Department at East Stroudsburg University and the Brodhead Watershed Association.
  - Performed stream bank erosion tests in the Brodhead Watershed from the head waters to the Delaware River.
  - Used handheld GPS and Tremble units to record field data.
  - Used GIS to map our findings and present them to both ESU and the BWA.
- August 2009 – December 2009: Performed a ridership study for Monroe County Transit Authority's Yellow Bus Route; using Geographic Information Systems to map the current route, record ridership data, and create an alternate route.
