
Summary

I am a teacher with 19 years experience and an Instructional II certification. My goals are to plan and implement a rigorous instructional program based on the Pennsylvania State Standards and Core Curriculum. This will happen in a learning environment that will guide my students to develop, explore and fulfill their academic potential. I have taught a variety of children varying in age, personalities, cultures and learning styles for the purpose of bringing elementary students into the twenty-first century. My ability to motivate elementary students and share my love of learning fosters a successful classroom environment.
